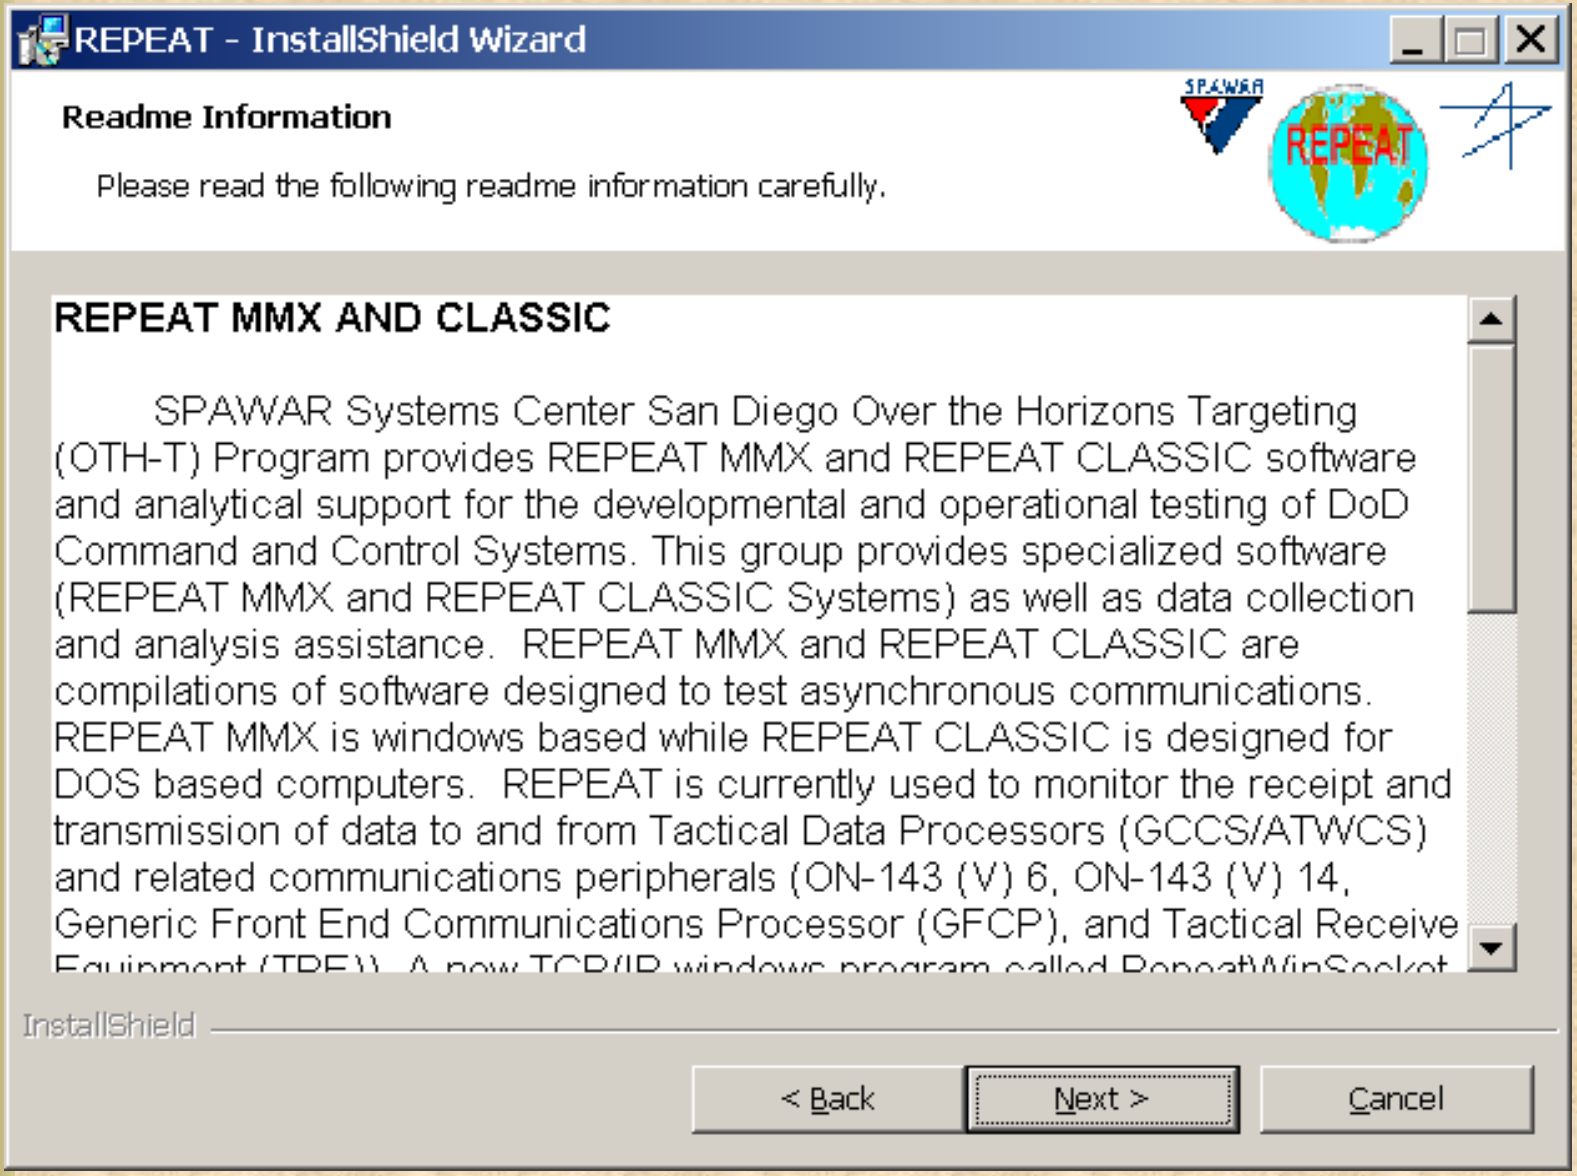
PROGRAM INFORMATION



REPEAT - InstallShield Wizard
Readme Information
Please read the following readme information carefully.
REPEAT
REPEAT MMX AND CLASSIC
SPAWAR Systems Center San Diego Over the Horizons Targeting (OTH-T) Program provides REPEAT MMX and REPEAT CLASSIC software and analytical support for the developmental and operational testing of DoD Command and Control Systems. This group provides specialized software (REPEAT MMX and REPEAT CLASSIC Systems) as well as data collection and analysis assistance. REPEAT MMX and REPEAT CLASSIC are compilations of software designed to test asynchronous communications. REPEAT MMX is windows based while REPEAT CLASSIC is designed for DOS based computers. REPEAT is currently used to monitor the receipt and transmission of data to and from Tactical Data Processors (GCCS/ATWCS) and related communications peripherals (ON-143 (V) 6, ON-143 (V) 14, Generic Front End Communications Processor (GFCP), and Tactical Receive
